

AYUSH KHATRI

Gujarat, India | ayushkhatri.in | github.com/ayush-khatri | ayushkhatri.dev@gmail.com

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, C/C++

Libraries & Frameworks: Next.js, React.js, Express.js, Node.js, Tailwind CSS, Zod

Databases & ORM: PostgreSQL, MongoDB, Redis, Prisma ORM

EXPERIENCE

Full-Stack Developer

Portlinks India

Nov 2025 – Present

Gujarat, India

- **Workflow Automation:** Architected an end-to-end Project Management System automating lead-to-invoice workflows, cutting internal administrative turnaround time by **40%**.
- **Security & Access Control:** Engineered an operational Admin Dashboard from scratch, reducing unauthorized access vulnerabilities to zero through custom OAuth RBAC, reCAPTCHA v3, and multi-attempt IP blocking.
- **High-Throughput Queue Systems:** Built a messaging engine with Redis and BullMQ, offloading high-volume bulk email operations to process thousands of weekly dispatches with **99.9% queue uptime**.

Freelance Web Developer

Self-Employed

July 2024 – Oct 2025

Gujarat, India

- **Client Solutions:** Developed 5+ responsive, full-stack web applications using React, Next.js, and Tailwind CSS.
- **Payment Gateway Integration:** Integrated Razorpay for secure online booking workflows and real-time transaction handling.
- **Client Collaboration:** Worked directly with 5+ clients to translate business requirements into technical deliverables.

PROJECTS

SrcMap | Next.js, TypeScript, Tailwind CSS, GitHub API

Live | GitHub

- Built a browser-based GitHub repository explorer with a VS Code-style interface, enabling users to inspect public codebases without cloning or installing them.
- Implemented file-tree navigation, syntax-highlighted code reading, and in-file search to make unfamiliar repositories faster to explore.
- Created shareable links that preserve the selected repository, file, and search query, making it easier to send teammates relevant code in context.

LessonMap | Next.js, TypeScript, PostgreSQL, Prisma, AI

Live | GitHub

- Developed a course-planning platform that lets educators build curricula from scratch, use starter templates, or generate editable outlines with AI.
- Built a drag-and-drop course editor for organizing modules and lessons and attaching code, notes, links, PDFs, and images.
- Enabled public course pages with shareable links and browser-saved lesson progress, giving learners a structured way to follow a curriculum.

Q-Chat | Next.js, Ably, PostgreSQL, Prisma, Firebase

Live | GitHub

- Built a real-time, room-based chat application using Ably for messaging, typing indicators, and online presence.
- Implemented custom room codes and persistent message history with paginated infinite scrolling through PostgreSQL and Prisma.
- Integrated Google OAuth and Firebase Cloud Messaging to support authenticated conversations and background push notifications.

EDUCATION

DNV International College

Bachelor of Computer Application, CGPA: 6.92

Gujarat, India

2021 – 2024
